Preamble:

After the first issue of “PARTNERS PAGE”, I feel that our consortium, VIKASH-SAMUKHYA has come a long way in serving to the needs of nearly 400+ CSO Partners all over India as well as many other stakeholders that include PSUs, Corporate and Media Houses along with a many Public and Private sector agencies. It cannot be expressed in words and figures today about their goodwill messages, feedbacks and requests for sending it again and again. Our CSO Partners, spread across 25 states and 1 union territory of India had achieved so much during last one month that we cannot give them due justice with a small publication like this. So we thought of putting it in a special volume like this in next October with minimum text and figures to give all stakeholders a good account of our consistent efforts in reaching the SDGs by 2030. All of our esteemed readers have promised us to forward this issue of the PARTNERS PAGE to others as well for giving maximum visibility to our continuous endeavours during the last couple of months in our respective project areas.

We have only rearranged our sincere efforts as per the 17 Sustainable Development Goals (SDGs), for which all of us are working to accomplish the said targets as early as possible. At this point of time, India needs the resurrected Civil Society Movement to take the correct step in the right direction. Hence, what all of us are doing together is a small contribution towards a bigger mandate with a larger agenda in years to come.

- Dr Surendra Kumar Mishra, National Coordinator, 

VIKASH SAMUKHYA
A CIVIL SOCIETY CONSORTIUM FOR DEVELOPMENT

Committed to Working together until the 17 Goals are reached for India

SUSTAINABLE DEVELOPMENT GOALS
